 HESCO®

RAID DATA SHEET

## PATENTED STORAGE AND RELEASE CONTAINER HESCO RAID.

HESCO® RAID™ is a patented storage and release container which halves logistical requirements compared to standard MIL while also allowing pre-connected units to be rapidly unfolded from the container, deploying over 1,000' (304.8m) of barrier in under one minute.

Rapidly deployable  
Immediate cover from sight  
Non-woven polypropylene geotextile  
UV stabilized  
Zinc-aluminum coated steel  
Available in 3 different sizes  
Ballistic and blast protection  
Hostile vehicle mitigation  
Disconnect and store unused units  
Container included – self-packaged unit  
(no waste)

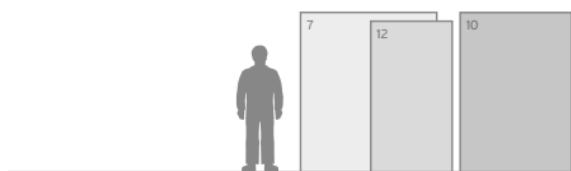

RAID reduces the logistical burden of protecting expeditionary operations.  
Preparation is easy, RAID doesn't require foundations or concrete and can be securely surface-mounted.

### General Dimensions

Product	Height	Depth	Length
RAID7	2.21	2.13	237
RAID7R	2.21	2.13	237
RAID7H*	2.21	2.13	333
RAID7RH*	2.21	2.13	333
RAID10	2.21	1.52	224
RAID10R	2.21	1.52	224
RAID12	2.13	1.06	321
RAID12R	2.13	1.06	321
